Elke, We are in the process of developing an order for additional work at FMC - this will require FMC to conduct an evaluation of a number of sites which were never addressed in the Superfund process as well as some re-evaluation of areas Superfund looked at. I will be requesting input from the Tribes and the State (Doug Tanner in Pocatello) on this order which I hope to have out for State and Tribes review by the end of December. Once FMC conducts this work we will then do a Rod Amendment. The schedule for the Rod Amendment will depend on how extensive the additional sampling will be. I anticipate that the public process for the Rod Amendment will begin about 2 years from now. The Rod Amendment will have a public comment period and public meeting. Would you like to be added to our mailing list?
